San Bernardino County Tobacco Control Program

Objective 4

Activity 4-E-3

Youth Member Participation Record July 2022

Objective 4: By June 30, 2025, maintain at least 20 San Bernardino County youth ages 13-20 that will be recruited, trained and engaged by the San Bernardino County Tobacco Control Program staff and Coalition for a Tobacco-Free San Bernardino County members to enable local youth to effectively educate the community about tobacco control issues. Trained youth volunteers will increase their tobacco control advocacy skills and knowledge by at least 70 percent, as evidenced by a pre- and post-test measurement, and will participate in a minimum of five (5) tobacco control activities annually.

Introduction

One of the biggest contributors to the success of tobacco control is the inclusion of youth in local tobacco control work. Youth coalitions provide an avenue to orient them and provide structure for their meaningful participation. Further, youth coalitions provide opportunities to collaborate with local leaders and promote policy change. Measuring the amount and types of participation by youth coalition members is critical to understanding and improving progress with Objective 4.

A Member Participation Record (MPR) was used to track and assess youth coalition member engagement in key activities including subcommittees, advocacy efforts, planning meetings, trainings, and workshops. Event and participant information tracked in the MPR include event name, date, location, description of events, and which youth participated (which allows for an unduplicated count).

Evaluation Activity Results

Seventeen (17) unduplicated youth from four areas across San Bernardino County were actively engaged in tobacco control activities between January and June. During this period, these 17 youth participated in a total of 56 events, an average of three activities per youth.

Some activities, such as Hesperia's CALI Youth Coalition, are specific to one geography, while other events, such as Youth Quest, brought together youth from across the county. In addition, some activities were ongoing, regular meetings while others were one-time events (e.g., Hesperia's park clean-up). Hesperia youth appear to be the most active, but while other jurisdictions, such as Grand Terrace, have just one or two youth, those who are involved are quite active, even participating in Key Informant Interviews with local decision-makers. A table is provided on the next page outlining the unduplicated number of participating youth by month.

Summary

Hesperia's Youth Coalition is quite active, maintaining their momentum. Other areas, such as Victorville, are still growing their coalitions and it will take some time to have steady involvement. In some instances, youth and/or their parents are not comfortable with in-person events which may limit participation.

There was strong participation amongst the youth who did participate and they had the opportunity to be involved in a wide variety of activities, from regular meetings, to Youth Quest, to data collection activities such as Key Informant Interviews and park observations (2-E-5), all of which increase their knowledge base and skill set.

Number of Youth Participating in Meetings & Events Unduplicated Count						
Activity	Jan 2022	Feb 2022	March 2022	April 2022	May 2022	June 2022
Coalition for a Tobacco- Free San Bernardino County	0	0	0	4	0	0
Grand Terrace MASC	0	0	1	0	0	0
